

## Hope Song

Rock Kills Kid

The rain drops, pour off the roof again  
They fall down, down, down upon me  
I won't let it get me down  
There's something for me here  
I'm gonna give it one more try

Because I gave it all away  
And I'm still standing  
Threw my world away  
I'm still standing  
And I gave it all away  
And I'm still standing

In the sky I feel, I feel disaster  
Coming towards me  
I won't let it get me down  
There's so much life to live  
I'm gonna give it one more try

Because I gave it all away  
And I'm still standing  
Threw my world away  
I'm still standing  
And I gave it all away  
I'm still standing

The rain drops fall down

Because I gave it all away  
And I'm still standing  
Threw my world away  
And I'm still standing

Sing me a hope song  
And I'll sing with you  
'Cause I gave it all away  
And I'm still standing

I gave it all away  
I gave it all away  
I gave it all away  
I gave it all away
