

# Eye On You

Rocket from the Crypt

I got an eye on you  
(I got an eye on you, man)  
I got an eye on you  
(I got an eye on you, man)

No matter what you  
Do no matter what you do  
I got an eye on you

I, I, I, I, forty days and thirty winks  
I can't even tell what the hell that I think  
Uh left to watch with my roving eye  
I said you're making me feel like some kinda spy

I said these things to you, you say that it's through  
I said these things to you, you say that it's through  
I said these things to you, you say that it's through  
But baby, it hasn't even started

I know you're not a rich man  
I know that you're not blind  
But why do you keep on watchin'?

'Cause baby  
(Yeah)  
Baby  
(Yeah)  
You're drivin' me outta my mind

I got an eye on you  
I got an eye on you  
(I got an eye on you, man)  
I got an eye on you

(I got an eye on you, man)  
No matter what you  
Do no matter what you do  
I got an eye on you

I, I, I, I, forty sips and forty drinks  
I look like a wreck and I know that I stink  
I can't sleep but I'm in this dream  
So baby, don't slap me and make some scene

I said these things to you, you say that it's through  
I said these things to you, you say that it's through  
I said these things to you, you say that it's through  
But baby, it hasn't even started

I know you're not a rich man  
I know that you're not blind  
But why do you keep on watchin'?

'Cause baby  
(Yeah)  
Baby  
(Yeah)

You're drivin' me outta my mind  
I got an eye on you

I know you're watchin' me  
I know you're watchin' me  
I know what you see  
I know what you see  
Don't try and disagree

I got an eye on you  
I got an eye on you  
(I got an eye on you, man)  
I got an eye on you  
(I got an eye on you, man)
