

## Get Down

### Rocket from the Crypt

Last chance to get rich off this shit  
That makes me sick  
You think you've seen it all, yeah  
You haven't seen shit, you moron

Come on, you better look behind your back  
You better turn around, you better turn around, you better turn  
around  
You better say, "Who's fault now, who's fault now, who's fault?  
"  
You better get down before the heat starts to burn and make you  
melt

Last chance to get fucked off this shit  
That we can't trust  
You think you've seen it all, yeah  
You're gonna see it again you moron

You better look behind your back  
You better turn around, you better turn around, you better turn  
around  
You better say, "Who's fault now, who's fault now, who's fault?  
"  
You better get down before the heat starts to burn and make you  
melt
