

Made For You

Rocket from the Crypt

Just because you don't have a reason
To see what's going on, do you see my bullseye?
(Yeah, I see your bullseye)
Can't you feel? The feeling's strong

Just because you don't have to worry
Just because we don't have to hurry
I'd never lie to you now, now

I was made for you, I was made for you
I was made for you, I was made for you

There's a fool goin' 'round and talkin' like a fool
Like a fool only knows how to do, do you see my bullwhip?
(Yeah, I see your bullwhip)
That fool's gonna be black 'n' blue

Just because you don't have to worry
Just because we don't have to hurry
I'd never lie to you now, now

I was made for you, I was made for you
I was made for you, I was made for you

Ooh, ooh, ooh, ooh, I was made for you

Just because you don't have to worry
Don't mean that I don't care

Just because you don't have to worry
Just because we don't have to hurry
I'd never lie to you now, now

I was made for you, I was made for you
I was made for you, I was made for you
