

# So Long

Rockie Fresh

[Intro:]

Yeah

We can make it to it

All of y'all can make it too

A nigga like me, yeah I made it through

Uh, okay and all of y'all can make it too

[Verse:]

Okay now love to all the teachers that said I wouldn't be shit

Love to local rappers that said I wouldn't be shit

Love to all the girls that took my kindness for a weakness

I made it through the pain, all of y'all deserve to see this

Just a young nigga from Homewood that started thinking forward

Was known for all that fly shit and those fresh clothes that I sported

And love to those that saw my dreams and went out and supported

I made it on the road, my school mission was aborted

And I'm not tryna stop birth, but understand my plan b

Make everybody in this world understand me

See me and all my niggas used to roll in a Camry

And now we make them 2012 Benz start hands-free

And that is not for stunting, but to show you you can improve

We all got things to get through, we all dreams to get to

We all gon' have some problems, going through a couple issues

But when we make it out, always say this in your mental

[Hook:]

I'm a live it like I never had nothing before

And I'm a stack it like I never had money before

'Cause I came at the bottom, remained at the bottom

And now I'm at the top, so I'm waving at the bottom

So long, so long, so long, so long

[Bridge:]

Okay, we gotta stay fly, and never say die

Yeah we gotta stay fly, and never say die

Yeah we gotta stay fly, and never say die

If you feel me, put your arms up in the sky

And sing it with me

I said we gotta stay fly, and never say die

Yeah we gotta stay fly, and never say die

Yeah we gotta stay fly, and never say die

If you feel me, put your arms up in the sky

And sing it with me

[Hook]
