

# Twenties

Rockie Fresh

[Hook:]

When I was just a young'un I had dreams of riding  
twenties  
Chilling with my homies and we all in our twenties  
Better than expected, we ain't locked up doing twenty  
Out here trying to get it while we living in our  
twenties  
Counting hella twenties, counting hella twenties  
I was playing 2K and beat a nigga by twenty  
Chilling with the vets, even though I'm still a rookie  
Got a lot of living left, trying to get it in my  
twenties

[Verse 1:]

Rockie Fresh is still the truth, when they doubt I show  
'em proof  
Started at the flow, then my flow took me through the  
roof  
Put money into my future, could've bought a coupe  
And now Nike gave me shoes, and I ain't got a hoop  
A lot of people always ask me how I did this  
I tell 'em I work hard, then I try to mind my business  
Do the best I can, but I cannot grant your wishes  
And I burn a lot of trees, but I never burn bridges  
And the reason I be smoking, cause some shit blow me to  
no end  
The old me would go in, but I'm older now and I'm  
growing  
Yeah, the old me would go in  
But right now I can't trip, cause I know I'm going

[Hook]

[Verse 2:]

And I'm still doing what I choose, getting paid, paying  
dues  
Go by one rule: what it is never lose  
Bape army, I'm a troop, stepping hard like a Nupe  
Big blunt blowing, you would think a nigga played the  
flute  
Losers not in my crew, little homie you can scoop  
You ain't talking money then you might as well be put  
on mute  
Fiending a financial conversation  
And I'm too focused, I can't even see no confrontation  
Now they put me in the basement, I'm so high so I ain't  
with it  
That is no place for the young, fly, and gifted  
And when I was a shawty that's how I thought I would  
get it  
Started as a dream, now I really get to live it

[Hook]
