Chasin' Girls

Rodney Atkins

It started out summer fun Chasin' Ally Brooke with a water gun She'd laugh and she'd scream She'd run and say you can't catch me

Well time passed I turned sixteen Crusin' from the Sonic to the Dairy Queen Runnin' the roads we ruled like kings

We'd say, well here comes Ally with her hot friends They got water balloons in their hands Oh man they got me now let's get them

Chasin' girls, what a life Man I love them can't get enough of them From their toes up to their curls

Chasin' girls, hard to catch Sweet to hold, even tougher to let them go Nothin' like it in the whole wide world Chasin' girls

Caught Ally Brooke, and that was that Bought a home below on a culdesac Settled in, and I knew that my girl chasin' day were through

Until she handed me the EPT I said tell me what this blue strip means That was then, and now our twins are three

And it's who left the popsicle on the couch Don't let that dog lick it in the mouth Up and down all around this house I'm right back to where I started out

Chasin' girls, what a life Man I love them can't get enough of them From their toes up to their curls

Chasin' girls, hard to catch Sweet to hold, even tougher to let them go Nothin' like it in the whole wide world Chasin' girls

Last night I had a nightmare The future was now here My little girls were teens And then these teenage boys appeared

Oh no Yeah

Chasin' girls, hard to catch Sweet to hold, even tougher to let them go Nothin' like it in the whole wide world Chasin' girls Chasin' girls Oh Whoo
