

# I Hope You Die

Rodney Carrington

Woke up this morning,  
And you were gone,  
I found a note,  
It says "so long",  
You said this love would last our lives,  
I hope your face breaks out in hives.

I hope you die a painful death ,  
I hope you choke on your next breath,  
You screwed me up you've done me wrong,  
I hope you die 'fore too long.

I hope you have a heart attack,  
I hope your breasts get really slack,  
You were my girl but now you're not ,  
I hope you die, I hope you rot.

I don't wanna be your friend,  
I only want your life to end,  
You're back in town, someone else's gal,  
I hope you drown in the love canal.

I hope you die a painful death,  
I hope you choke on your next breath,  
You screwed me up you've done me wrong,  
I hope you die 'fore too long,  
'I hope you die 'fore end of the song,  
I hope you die, I really, really hope you die,

Die, die, die, die...
