Did you say that you've been searching for A place you've never been?
Well here it is
Here it is

And you've been down there on the bottom And looking out for a friend Here I am

Here I am

We've both grown tired Of running after rainbows Here we are Darling, here we are

When it feels like you've been driftin' And you don't know where you've been Come on in You can come on in

And if all you've seen are back doors
That lead you out of town
Turn around
You can turn around

We've both grown tired
Of running after rainbows
Here we are
Darling, here we are

We've both grown tired
Of running from each other
Here we are
Darling, here we are

Here we are Here we are
