

# Now That We're Alone

Rodney Crowell

And tell me what you're feelin' now  
That everybody's left and gone  
Anybody break your heart'  
Anybody done you wrong'  
Hey, I know what you need to hear  
Way down inside your ear

Now that we're alone  
Now that we're alone  
Let's talk about it now that we're alone

And too many smiling faces  
Try to turn your head around  
Too many times and places when those  
Uptown dreams just drag you down  
Hey, I know what you need tonight  
I'm gonna hold you tight

Now that we're alone  
Oh, now that we're alone  
Let's talk about it now that we're alone

Now you might see  
Rain outside your window  
And you might hear  
Footsteps down your hall

So tell me what you think about it  
Now that the day's complete  
Anybody hurt your feelings, darlin''  
Anybody cut you deep'  
Hey, I know what you need to know  
I'm never gonna let you go

Now that we're alone  
Now that we're alone  
Let's talk about it now that we're alone

Now you might see  
Rain outside your window  
And you might hear  
Footsteps down your hall

So tell me what you're feelin' now  
That everybody's left and gone  
Anybody break your heart'  
Anybody done you wrong'  
Hey, I know what you need tonight  
I'm gonna hold you tight

Now that we're alone  
Oh, now that we're alone  
Let's talk about it now that we're alone  
Let's talk about it now that we're alone
