

What Kind Of Love

Rodney Crowell

I'll give you the best I can give you, baby
That's all I can give
We'll live it the best we can live it, baby
As long as we live

What kind of love never turns you down
What kind of love lifts you off the ground
Turns your life around

What kind of love makes you go out in the wind and the drivin'
rain?
What kind of love runs through your heart with a pleasure so cl
ose to pain?
What kind of love, only this love that I have

I'll show you the best I can show you, baby
That's all I can show you
And I'll know you the best I can know you, baby
As long as I know you

What kind of love never turns away
What kind of love never makes you pay
Hears you when you pray

What kind of love makes you go out in the wind and the drivin'
rain?
What kind of love runs through your heart with a pleasure so cl
ose to pain?
What kind of love, only this love that I have

This love I know is all I have
(All I have)
This love I have is all I know
So I won't let go

What kind of love makes you go out in the wind and the drivin'
rain?
What kind of love runs through your heart with a pleasure so cl
ose to pain?
What kind of love, only this love that I have
What kind of love, only this love that I have
