

A Feeling I Get

Roger Creager

Roger Creager

You ask me how I'm feeling down deep inside
It's not something I'm holding back or trying to hide
My love for you is not easily explained
There's more than the moon and stars and the warm summer rain

Well it's a jalapeno pepper on a cheesy enchilada
Spicy side of life, just a little bit hotter
An ice-cold cerveza on a hot summer day
Takin' you out to eat and makin' love on the way
It's not knowin' where you're goin' but knowin' when you're there
Bein' with the ones that you know really care
Hey I guess these are all a part of it
It's a feeling I get
It's a feeling I get

Now you look at me so deeply like you've got something to say
You wanna tell me how you feel, but don't wanna sound cliché
You have a strange way of sayin' how you feel
Ah, but when you put it that way
How can I doubt that it's for real?

It's like 99 degrees in the Texas summer heat
Underneath a tree, spittin' watermelon seeds
Eatin' old fashioned ice cream with mama and your pa
Ridin' on the tractor in your panties and your bra
It's not knowin' where you're goin' but knowin' when you're there
Bein' with the ones that you know really care
Hey I guess these are all a part of it
It's a feeling I get
It's a feeling I get

Look into our future and tell me what you see
We'll always be together as long as we wanna be
I know we'll make it through somehow
Just look at what we're both feelin' right now

Well it's a jalapeno pepper on a cheesy enchilada
Spicy side of life, just a whole bit hotter
An ice-cold cerveza on a hot summer day
Takin' you out to eat and makin' love on the way
It's not knowin' where you're goin' but knowin' when you're there
Bein' with the ones that you know really care
Hey I guess these are all a part of it
It's a feeling I get
It's a feeling I get
It's a feeling I get
It's a feeling I get
YEAH
