

Goodbye

Roger Creager

Roger Creager

Tonight I don't feel much like writing a song
But I guess I needed something to sing along
Something that I could sing and I could cry to
A song to help me say goodbye to you

Love says we'll always have forever
Life knew we'd have just awhile
Greener pastures lie ahead of you out there somewhere
I look into your heart and give a smile

Chorus

Goodbye, goodbye

My answer for pain, she lies sleeping
Your remedy lies deep inside of you
I've always admitted the way you take things head on
Maybe someday I'll be strong like that too
I can't say that I blame you
I cannot say you were wrong
I never found the way to say this
So to you I sing this song

Chorus

Repeat first verse

This song helped me say goodbye to you
I guess I finally said goodbye to you
