

Fallen Angel

Roger Daltrey

Out of favour
Into the fire
Throw my state of grace
I fall to ruin
You call me a liar
The blight of the human race
But it's against my will
I am banished to this place

I'm losing control
A stranger in a state of change
Locked in the rift between heaven and Hell
I drift like a fallen angel
Like a fallen angel

Here in your exile
Your justice bars
Branded the philistine
Am I the demon?
The one that turns
The human decline
And it's against my will
I'm banished to this place

I'm losing control
A stranger in a state of change
Locked in the rift between heaven and Hell
I drift like a fallen angel
Like a fallen angel

But it wasn't always this way
Once I had the glory
And you'd follow every word of my law
Now I am cast from this role
Now I am broken

I'm losing control
A stranger in a state of change
Locked in the rift between heaven and Hell
I drift like a fallen angel
Like a fallen angel
