

# Get Your Love

Roger Daltrey

How long must I sit around waiting you  
Think of all the heartache  
You been putting me through  
You must have a soul  
But it don't show  
Come on and love me  
Let me know

Come and get your love (Get your love)  
Come and get your love (Get your love)  
Come and get your love (Get your love)  
Come and get your love (Get your love)  
Come and get your love, before I give it away

(Come and get it)  
You're a devil witch  
And I'm hypnotized  
But woman I could see right through your eyes  
Here's something for you  
(I Can't)  
Take it from me  
Why don't you love me?  
Or set me free

Or come and get your love (Get your love)  
Come and get your love (Get your love)  
Come and get your love (Get your love)  
Come and get your love (Get your love)  
Come and get your love before I give it away

(Come and get it)  
(Come on baby, get your love)  
(Come on baby, get your love)  
(Come on baby, get your love)  
(Come on baby, get your love)  
(Come on baby, get your love)  
(Come on baby, get your love)

I've been holding on  
To your love for so long  
Could be I would tie you up  
The face I admire  
So why don't you say  
Just go away

Or come and get your love (Get your love)  
Get your love (Get your love)  
Come and get your love (Get your love)  
Come and get your love (Get your love)  
Come and get your love before I give it away

(Come and get it)  
Come on get down come and get your love (Come and get it)  
Get your love oh baby (Come on baby get your love)  
Here I am (Come on baby get your love)  
Waiting for you (Come on baby get your love)  
Get your love (Come on baby get your love)

How long (Come on baby)
