

# Miracle Of Love

Roger Daltrey

Is this a waking dream nothing seems real  
Although you're far away from me, I feel you still  
Down a dark and dusty road miles away from home  
Can you hear me calling you, you're not alone  
Then your voice rings in my ear just like a vision  
Suddenly your face appears

I feel the miracle of love  
Lifting me up each and every day  
Like a beacon in the night  
Your guiding light shows me the way

Through the best and worst of times you've stood right by me  
My comfort and protection in adversity  
And I don't know how to thank you for these  
Golden days we've known  
I guess I'll just have to love you more than I've ever done  
While your voice rings in my ear  
And out of the darkness  
Suddenly your face appears

I feel the miracle of love  
Lifting me up each and every day  
Like a beacon in the night  
Your guiding light shows me the way

And it keeps on getting better  
As we walk these steps in time together

Then off in the distance  
Your voice rings in my ear  
And just like a vision  
Suddenly I feel you near

I feel the miracle of love  
Lifting me up each and every day  
Like a beacon in the night  
You're guiding light shows me the way
