

# Parade

Roger Daltrey

I came through today  
At the back of a street parade  
And there I am, right side of your TV screen  
Slightly out of focus  
But unmistakably serene  
Never made the big time  
But I was in that scene.

Oh I was thinking about in films  
How in no time so it seems  
The hero meet his princess  
The king found his queen  
But in real life  
There's only in between  
I've never been a hero  
But I was in that scene.

Hollywood exist still  
Cause there's a sign upon the hill  
We buy the maps, and make the tours  
To touch the world of, motion, pictures.

So here I am  
Until the good time end to be  
I've never made the big time  
But I was in that scene

Hollywood exist still  
Cause there's a sign upon the hill  
We buy the maps, and make the tours  
To touch the world of, motion, pictures.

A star died today  
And they had a little street parade  
And all the other stars turned out  
To say how nice he'd been  
Someone at the back  
Flowing with the stream  
Never made the headlines  
But I was in that scene.

Someone at the back  
Flowing with the stream  
Never made the headlines  
But I was in that scene.

Someone at the back  
Flowing with the stream  
Never made the headlines  
But I was in that scene.
