## **Along Came Mary**

## **Roger Hodgson**

Was alone then along came Mary hair of gold and lips like cherries Was amazed when she stole my thunder filled my world with the ways of wonder

Come away come away with me Far away where the eyes can't see Come away to another time Pardon me if you lose your mind

Who are you now? Who makes the rules? Follow your heart and get back Won't you get back Oh get back

Was alone then along came Mary hair of gold and lips like cherries Was amazed when she stole my thunder Filled my world with the ways of wonder

Come away come away with me Far away where the eyes can't see Come away to another time Pardon me if you lose your mind Pardon me if you lose your mind Pardon me if you lose oh if you lose your mind
