

# Love Is A Thousand Times

Roger Hodgson

Love, love is a thousand times stronger than me  
stronger than you  
Well if you want to be a soldier go marching off to war  
You think you're going to be a hero  
but we've heard it all before, boy

Love, love is a thousand times dearer than me  
dearer than you'  
Well if you want to be a leader  
Then go and lead the way  
You're never going to give us freedom  
no matter what you say, boy'  
I said it'd better come soon

La-La-La

'Cause love-love is the way  
If only we all could hear, It just seems so clear  
I just can't believe watching the world what am I seeing?  
But I know there's a way, oh there must be a way  
Oh there must come day  
come a time when I can be free

'Cause I want to hear her voice  
softer than me, softer than you  
Whatever will it take me to bring her smile my way  
'Cause every time I try to please her  
she loves to go in hiding

I said she'd better come soon
