

## No Colours

Roger Hodgson

I saw you walking on the street  
I wondered if we'd ever meet  
You turned to look and then I turned away  
I wonder why it has to be that way  
Oh I wanna know your name  
Sometimes I wonder if everyone's like me  
So many wishes - so many dreams  
I want to stop I want to talk with you  
I'm just not sure if you would want me to  
So many faces - so many lives  
Sometimes they touch me and I feel so shy  
They're all like mirrors that I'm looking through  
The more I see the more I think of you  
Oh I wanna know your name  
I saw you walking on the street today  
I wondered if we'd ever meet  
I held my breath, I closed my eyes  
I stopped and listened as you passed me by  
I never saw your face, I never saw your colour  
I want to know you but I don't know how  
It's such a place of wonder  
Oh I wanna know your name
