## **No Colours**

**Roger Hodgson** 

I saw you walking on the street I wondered if we'd ever meet You turned to look and then I turned away I wonder why it has to be that way Oh I wanna know your name Sometimes I wonder if everyone's like me So many wishes - so many dreams I want to stop I want to talk with you I'm just not sure if you would want me to So many faces - so many lives Sometimes they touch me and I feel so shy They're all like mirrors that I'm looking through The more I see the more I think of you Oh I wanna know your name I saw you walking on the street today I wondered if we'd ever meet I held my breath, I closed my eyes I stopped and listened as you passed me by I never saw your face, I never saw your colour I want to know you but I don't know how It's such a place of wonder Oh I wanna know your name
