

Somebody Loves You

Roger McGuinn

Alright

My baby came this mornin', arrivin' on the 8:05
Then she washed away my rain, keepin' me alive
And I'm thinkin', still I'm thinkin' about you
Do you need some lovin', real good lovin' to see you through

Did you catch me sleepin', was it just the closin' of my eye
With my eyes wide open the sunshine lightened up my mind
And I'm thinkin', still I'm thinkin' about you
Do you need some lovin', real good lovin' to see you through

Ooh, somebody loves you, be sure
And deep in your heart you know it's the only core
Cause you know it's just you, you know it's just you, babe
