

# Your Love Is a Gold Mine

Roger McGuinn

She got rubies on her pillow  
She got sapphires on the head of her bed  
She got emeralds on her finger tips  
She got diamonds in her hairs  
She got jasper on her curtains  
She got chrysolite on her ceiling  
She got topaz on the soles of her shoes  
And it sparkles as she's leaving

I see her standing in the candlelight come a come a to me tonight  
Your love is the sweetest thing your love makes me feel so fine  
Your love is a shimmering light your love is a gold mine

She got amethyst in her earrings  
She got platinum on the tip of her toes  
She got sterling in her dresser drawers  
She got yellow gold on the helms of her clothes

I see her standing in the candlelight come a come a to me tonight  
Your love is the sweetest thing your love makes me feel so fine  
Your love is a shimmering light your love is a gold mine  
So many facets of your love it's so refined  
Take me forever to mine it out but I don't mind  
I think about her and I call her name  
Her eyes reflecting in the window pane

I see her standing in the candlelight come a come a to me tonight  
Your love is the sweetest thing your love makes me feel so fine  
Your love is a shimmering light your love is a gold mine  
Your love is the sweetest thing your love makes me feel so fine  
Your love is a shimmering light your love is a gold mine  
Your love is the sweetest thing your love makes me feel so fine  
Your love is a shimmering light your love is a gold mine
