## **Our Hearts Will Play The Music**

**Roger Miller** 

L don't like to do things, l don't like to do L like to do just what l please And if that pleases you, then we can make music Yeah we can make music, to make the rafters ring Our hearts will play the music for the songs our lips will sing

L don't care to go places, l don't care to go L like to go just where l please And if that pleases you, then we can make music We can make music, to make the rafters ring Our hearts will play the music for the songs our lips will sing

L don't like to think things, l don't like to think L like to think just what l please And if that pleases you, then we can make music We can make music, to make the rafters ring Our hearts will play the music for the songs our lips will sing Our hearts will play the music for the songs our lips will sing Our hearts will play the music for the songs our lips will sing
