Playboy

Well they call me a playboy While I'm makin' my rounds Chasing the bright lights Of every night spot in town Tho' I never show it My hearts breaking in two Yes they call me a playboy But I'm just lonesome for you I once had a real love That was when I had you But I'll never feel love With somebody new This false pride I'm wearing Is to cover my blues They call me a playboy But I'm just lonesome for you (Repeat)

Roger Miller
