You leave me there,
then you let me go
You build your planes
where no one ever goes
You've always told me
something's never last
So if there's nothing left
Why do you ever ask
Together... Free
Together... Free
Together
Moving out together
Dreams have two places
that we'd never known
across the waters
riding with the wind
a drop in the ocean
something's never there
we're closing out, then you realise
Free as a bird in flight... (blow you heart) Together
Free as a bird in light... moving out together
Free as a bird in flight... Together
Free as a bird in light... moving out together
Free as a bird in flight... Together
Free as a bird in light... moving out together
Free as a bird in flight...
Free as a bird in light...
Together
Moving out together
I'm not asking for miracles, I'm not asking
uh nothing is impossible
you must try
what they say
yeah come storm the weather
keeping us open
blow in heart
keeping us open
Free as a bird in flight (blowing in my heart)
Free as a bird in light (keeping us open)
Free as a bird in flight
blowing in my heart...
