

# Fight Club

**Roger Taylor**

We live in this world  
No choice in our birth  
A boy or a girl  
No clue to your worth

They give you a church  
They tell you the plan  
They'll make you a man  
Join the fight club

You do what you can  
In your own small way  
You'll do what you can  
You'll work and you'll pay

You'll do what you're told  
They'll make you a man  
Join the fight club
