

Fight Club

Roger Taylor

We live in this world
No choice in our birth
A boy or a girl
No clue to your worth

They give you a church
They tell you the plan
They'll make you a man
Join the fight club

You do what you can
In your own small way
You'll do what you can
You'll work and you'll pay

You'll do what you're told
They'll make you a man
Join the fight club
