

Pressure On

Roger Taylor

I've got the pressure on...

Pressure from above Pressure from below
I can't think straight or even go with the flow
I've got the pressure on

Analysts here, therapists there
You ain't getting me sitting on your chair
I've got the pressure on

The price is not right or open to debate
Besides I'm worried about my weight
I've got the pressure on

It's a signal, it's a sign
It's a symptom of the time
It's a warning, it's a gauge
It's a feature of the age

Politics, schmopolitics
I'm developing tics, clean out of tricks
Like a skin flick, just a little sick
So where's the kick?
I've got the pressure on

I think about you, I think about me
We grew up but we don't feel free
Is this where we wanted to be
It's not you, it's gotta be me
