

Sunny Day

Roger Taylor

In a heartbeat
I realised
Saw through your disguise
How could anybody be so beautiful

Stopped in my tracks
Got a big time shock
My captured heart just would not stop
How could anybody feel so wonderful

You walk down the street
Your hips sway, yeah
Cars crash, traffic stops
I have to look away

Where you are in the world (it's a sunny day)
It's a sunny day (it's a beautiful, wonderful day) yeah
Oh yeah

Shout from the rooftops
Tell the town
The sun is up, let's fool around
How could anybody be so beautiful, yeah

The skies the limit
With you by my side
Together we could learn to fly
How could anybody feel so wonderful

You're walking down the street
Your hips sway, mmm
Cars crash, traffic stops
I had to look away

Where you are in the world (it's a sunny day)
It's a sunny day (it's a beautiful, wonderful day)
Oh yeah
Play it

In a heartbeat, yeah
Oh I knew
How could anybody be so wonderful, yeah

In a heartbeat
One look and I knew
How could anybody feel so beautiful

Yeah
