## **Give Birth to a Smile**

**Roger Waters** 

Long live the child and the man Long live the mother and the lad The hills behind us and the sea Reach out to welcome you and me Valley deep and mountain tall Lie upon the ground before us all Strange are the colours of the turf Heralding the rebirth of the earth Gather all your energy and try Give birth to a smile Give birth to a smile Give birth to a smile, everytime you think about it Give birth to a smile Give birth to a smile, hear me tellin' you Give birth to a smile, give birth to a smile Give birth to a smile, give birth, give birth Give birth to a smile Give birth to a smile, every day of your life Give birth to a smile, give a little birth to a smile Give birth to a smile
