

# Hello Good Morning Happy Day

Roger Whittaker

Hello good morning happy day  
The sun is creeping around my window  
Hello good morning happy day  
I got to get my head up off my pillow

I dreamed that I was walking down this highway  
A crowd of folks seemed to be walking my way  
Well I wouldn't call it walking more like swaying  
And one and all the folks seemed to be saying

Hello good morning happy day  
The sun is creeping around my window  
Hello good morning happy day  
I got to get my head up off my pillow

When I'm in bed I do the darndest dreaming  
One night I dreamed about a fellow screaming  
Planes, bombs something he called war  
But no one seemed to listen anymore

Hello good morning happy day  
The sun is creeping around my window  
Hello good morning happy day  
I got to get my head up off my pillow

Hello, hello, hello happy day

Hello good morning happy day  
The sun is creeping around my window  
Hello good morning happy day  
I got to get my head up off my pillow

Hello good morning happy day  
The sun is creeping around my window  
Hello good morning happy day  
I got to get my head up off my pillow
