Candy Coloured Lights

Rogue Traders

Travelling light, living my life Hey hey hey Loving the lights, gonna ignite Hey hey hey

Giving it glow, head to my toe Hey hey hey You'll never know where it could go Hey hey hey

Look in the mirror ball This is the day I see it all If you come out to play It'll be worth the wait

Dancing under candy coloured lights Just this once I'll become hypnotised This vibration feel it if you dare Colours of a secret love affair

Heat of the night, temperature's right Hey hey hey Taking a bite, savour the night Hey hey hey

Giving a show, doing it slow Hey hey hey Get ready to go, I'm telling you so Hey hey hey

Look in the mirror ball This is the day I see it all If you come out to play It'll be worth the wait

Dancing under candy coloured lights Just this once I'll become hypnotised This vibration feel it if you dare Colours of a secret love affair I'm gonna take it I'm gonna take it I'm gonna take it I'm gonna take it
