

The Price We Pay

Rogue Traders

If you wanna ask me what is wrong I can't say
Feeling bad has never felt this good it's fair to say
And I'll get by 'cause you remind me that's the price we pay for love

I'm just happy waiting by myself again today
Being here reminds me of your smile so I stay
And I'll get by 'cause you remind me that's the price we pay for love

That's the price we pay for love
The price we pay for love
