

# We're Coming Home

Rogue Traders

You know we're fallin' to zero  
Hurtin' much more than it did before  
I'm always playing the hero  
Cleaning your mess as you walk out the door

I'm counting things'll change now  
Taking it back where it all began  
Don't like this merry-go-round  
Gotta believe, believe we can

We're coming home we're coming home  
You know it's now or never

No afterglow this time I know  
But I'm feelin' kinda better

We're coming home we're coming home  
You know it's now or never

This time I know, this time I know  
It's going on forever

I'm counting down to zero  
Diggin' my heels in the dirt again  
You're not a superhero  
Saving the world to the bitter end

I think it's time that you knew  
I'm seeing it all now in black and white  
I'd do it all to save you  
Changing the world ain't gonna make it right

See me walk away  
You know it's now or never  
See me walk away  
I'm feelin' kinda better
