

# What You're On

## Rogue Traders

Don't think that it's over now  
You'll feel better soon  
Move on to the hallowed ground  
Cos' it ends when I met you  
And it's my face that you'll lean to

If you succumb  
What's done is done  
If you succumb  
Why don't you tell me what went wrong?

If you succumb  
What's done is done  
What's done is done  
Why don't you tell me what you're on?

Don't give up you have a friend  
I still see you smile  
Take a look and don't pretend  
Wind away the miles with you  
If it's my face that you'll lean to  
If you succumb  
What's done is done  
If you succumb  
Why don't you tell me what went wrong?

If you succumb  
What's done is done  
What's done is done  
Why don't you tell me what you're on?

If you succumb  
What's done is done  
If you succumb  
Why don't you tell me what you're on?

If you succumb  
What's done is done  
If you succumb  
Why don't you tell me what went wrong?

If you succumb  
What's done is done  
What's done is done  
Why don't you tell me what you're on?
