

## Falcon Settles Me

Rogue Wave

No one can do the things you do,  
No one 'round here.  
Robot? and industrious voodoo  
On all the window shades.

See, people be undivided?  
You open your window pane  
Look into your little garden.  
You're the seed and I am the planter,  
Just you and I.  
Roll through poppies and oleander  
On all the window shade

See, people be undivided?  
You open your window pane  
And into your little garden  
No one is broken.  
No one I see.

But when the falcon settles me,  
Then I know I'm right.  
If your good looks could settle me,  
Then I know I'm right.

And when the falcon settles me,  
Then I know I'm right.  
If your good looks could settle me,  
Then I know I'm right
