

Figured It Out

Rogue Wave

Lately I've been doublethinkin'
About the way it used to be
I figured it out
I figured it out

You say that I was being selfish
I woke - today was meant to be
I figured it out
I figured it out
I figured it out
I figured it out

Well at the moment I passed away
Well at the moment I passed away
I know I'm gonna be so proud
Yes I know I'm gonna be so proud
Ahahaha....

The gravity's cohere ambition
Never meant that much to me
I figured it out

Cause you were there when I was younger
I've never been too blind to see
I figured it out
I think I figured it out

Well at the moment I passed away
Well at that moment I passed away
I know I'm gonna be so proud
Yes I know I'm gonna be so proud

I know the end has come to pass
No words could cover it
But you can beat love
And you will
You will be love (high)
I know I'm gonna be so proud
I know I'm gonna be so proud
I know I'm gonna be so proud
I know I'm gonna be so proud
