

Ghost

Rogue Wave

I want to slam the coastline
I want to hammer trees
You know I like it
We used the bend the risers
And the maple leaves
You know I like it
Because it's you to wonder
How I drive
Because it's you I wanted
For now

We used the burn the lamplight
On the rainy Sundays
You know I like it
I want to drive the highway
I want to feel the breeze
You know I like it
Because it's you to be
My ageless ghost
Because it's you I wanted
For now

Say you want it my heart...
