Rogue Wave

Hey, this one's on fire
Listen to the bad luck all over again
Waiters with no one to fire
Listen to the bad luck
While this one flies
You said my reply
Well I'm sorry, well I'm sorry
Hey, this one's on fire
Listen to the bad luck all over again
Hades, there's no one to fire
Listen to the bad luck all over again
You said my reply
Well I'm sorry, I'm meaner

Things you never liked
Things you never tried
Things you never liked
Things you never tried
Rules you never loved
Rules that never stuck
Brains you never tried
Things you never liked

Hey, all over again
Listen to the hard luck all over again
You hide my reply
Walkers with delusions of love
You made your cover over
While this one stuck
You hide my reply
Well I'm sorry, I can't live it

Things you never tried
Things you miss in mind
Things you never tried
Words you never liked
Own your own home
Leaving them in line
Words you never own
Things you never tried
Things you never tried
Things you never liked
Words you never stopped
Things you never liked
Things you never liked
Words you never stopped
Things you never tried
Words you never owned
