

Wait for It

Rogue Wave

Going round the air tonight
You've got to wait for it
Eyes look blind and air tonight
You've got to wait for it

This motivation that was never filled
He's the one on vacation
That was never filled
You've got to wait for it

Heart and bone head and tie
You've got to wait for it
Beach blonde wing
Anyway, you've got to wait for it

This motivation that was never filled
It'll want vacation that was never filled
You've got to wait for it

You've got to wait for it
You've got to wait for it

This motivation that was never filled
It'll want vacation that was never filled
You've got to wait for it

You've got to wait for it
You've got to wait for it
