

# Orally Fixated

Róisín Murphy

Don't take my lollipop  
You don't know how to line 'em up  
My baby's never satisfied  
He always wants what I've got  
He don't know when it's time to stop  
My baby's never been deprived

Out of house and home  
Where I shoulda known  
I shoulda seen it in his eyes  
Why can't you take a time out  
Why don't you ever shut your mouth  
I just can't stand to see you cry

When the last time we spoke  
And now you want more  
You are a very hungry guy

Baby, you're orally fixated  
You've got to give your mouth a rest  
So greedy, i wish u coulda waited  
But you just have love to stuff your face  
Baby, you're orally fixated  
You've got to give your mouth a rest  
So greedy, i wish u coulda waited  
But you just have love to stuff your face

What you see is what you get  
Cause I ain't got nothin yet  
At least not for a greedy little boy  
It's what you came to expect  
And I need time to reflect  
Ain't you heard that sometimes less is more  
My cupboard is bare, you're already there  
And i see through your dirty little ploy (boy?)

I'm not gonna fill u up  
Never never ever gonna fill your cup  
You can't have your cake and eat it too  
You never feel full and frankly it's dull  
Because it's always about you

Baby, you're orally fixated  
You've got to give your mouth a rest  
So greedy, i wish u coulda waited  
But you just have love to stuff your face  
Baby, you're orally fixated  
You've got to give your mouth a rest  
So greedy, i wish u coulda waited  
But you just have love to stuff your face
