

# Overpowered

Róisín Murphy

When I think that I'm over you  
I'm overpowered

Your data, my data  
The chromosomes match  
Exact as in matter  
A matter of fact

These amaranth feelings  
A cognitive state  
Need the love object  
To reciprocate

When I think that I'm over you  
I'm overpowered  
It's long overdue  
I'm overpowered

When I think that I'm over you  
I'm overpowered  
It's long overdue  
But I'm overpowered

As science struggles on  
To try to explain  
Oxy-toxins flowing  
Ever into my brain

As science struggles on  
To try to explain  
Oxy-toxins flowing  
Ever into my brain

A chemical reason  
If reason's your game  
A chemical needing  
Is there in the brain

With preprogrammed meanings  
Like a little more pep  
Alien feelings  
We have to accept

When I think that I'm over you  
I'm overpowered  
It's long overdue  
I'm overpowered

When I think that I'm over you  
I'm overpowered  
It's long overdue  
I'm overpowered

As science struggles on  
To try to explain  
Oxy-toxins flowing  
Ever into my brain

As science struggles on  
To try to explain  
Oxy-toxins flowing  
Ever into my brain

I'm overpowered
