

The Truth

Róisín Murphy

Go to the mountain if you must
Go to the burning bush
Heavy would ease your troubled mind
How do the fade just stay behind?

I know you better than you think I do
Don't worry babe.. this is why I fell in love with you
The man in the looking glass
Is looking back at you at last

You can't hide from the truth
Because the truth is all there is
You can't hide from the truth
Because the truth is all there is
You can't hide from the truth
Because the truth is all there is
You can't hide

Your happy times are too few and far between
It's a pity dear, we can't erase the things we've seen
So disappear, vanish if you wish
Just go before you're swallowed up by bitterness

And the truth is you can't hide from the truth
And the truth hurts because the truth is all there is
I realized some time ago that I would have to let you
go

May not be true to see that you return one day
But in your present state you may as well not be here
at all
You wear a thin disguise, it's from yourself you hide
Just take a look at us, we are heading for a fall

Now presiding in this quarter: hip-hop
Justice, my rap fort
Judge, jury, bailing for prosecuting d.a.
Et ceteras, paraphas
My mode is operend
It's carpe diem whether the fact or word is your way
Comprende?
The people versus, you ain't no sensi
Teaching that style of word-play
We got the words they
Regardless what your friends say
They're all disable
Striken from the record and deemed indimissable
This long arm of the law grabs a mic
Shoot dope lines first and ask questions later
The death sentence of this live litagator
Lose the case tighter than the jaws of a 'gator
Stenonographer, that study law again, the jargon
Let your counselors 'a barking, in hopes of a plea
bargain
But when you read back verbatim
What they're saying to persuade them
They realize exactly how I've played them

I come with the truth, whole truth and nothing but
'cause the truth hurts just as much as fuckin' with
lies will
I brew skill with free fills from now until
Plagerizing mc's get their flows distilled

Baby I don't die without you by my side
As long as you return into these arms of burn
Baby I won't die just take a look inside
Into these eyes that burn, come to these arms that
yearn

I won't die, ? ?
I won't die if you're not by my side

And the truth hurts because the truth is all there is
And the truth hurts because the truth is all there is
You can't hide from the truth, cause the truth is all
there is
You can't hide from the truth, cause the truth is all
there is
You can't hide from the truth, cause the truth is all
there is
You can't hide from the truth, cause the truth is all
there is
You can't hide from the truth, cause the truth is all
there is
You can't hide from the truth, cause the truth is all
there is
You can't hide from the truth
Because the truth is all there is
You can't hide from the truth..
