

# Be And Bring Me Home

Roky Erickson

If the way is clear my friend quick  
If the way is clear my friend don't kick  
Suddenly my fireplace is friendly  
Bringing me home

Suddenly I may control  
Take little things meaning big so's I'm not alone  
Suddenly I'm not sick  
Won't you be and bring me home

Be and bring me home  
Be and bring me home  
We can't roam  
Be and bring me home

Her jewelry drops all its grime  
Fed up crazy fanatics lose their crazy rhyme  
We are ahead of time  
All I can hear now is your chime  
You find out that you is what is spoken for  
You find out that you have no broken door  
Nothing is known of where to go back for more  
Like the waves are sparkling  
Just like the diamond shores

Be and bring me home  
Be and bring me home  
We can't roam  
Be and bring me home

You have your side, it's yours  
Except for us if it's your pleasure  
You can tap on my mind  
You can play the cat jive  
Someone was missing love  
And now this someone is going home  
I knew that you were missing  
But I couldn't tell how  
And I'm missing you  
And me receives that we are not alone

Be and bring me home  
We can't roam, no  
Be and bring me home

They told me you were dirty  
But I don't see no dirt  
They told me you were strong  
Funny I don't feel hurt  
They said you were a criminal  
No one sees no crime  
They said I might need their dirty prisons  
But I love the way you don't give me time

Be and bring me home  
Be and bring me home  
We can't roam, no

Be and bring me home

I don't care what they tell me  
I don't care what they say  
I don't care what they think  
I'll love my family always  
Special and magical music  
These are feelings from one to another  
No foot moves through you trying for to kick  
I won't jump on you though we are all rubber

Be and bring me home  
Be and bring me home  
We can't roam  
Be and bring me home
