

Birds'd Crash

Roky Erickson

we're here
i'm here
your there
self
all clear

and its gonna last
and its gonna last
thinking they had to
birds'd crashed

i'm a-going fast
i'm a-going fast
stay with me
make plans
that you can

and its gonna last
and its gonna last
thinking they had to
birds'd crashed

wells it like we found out
if your gonna think something
think something
that's not dead
you wouldn't wanna take it wrong
think it out
through your head

we've made it
with feelings
all we want
is to bring your head too

and its gonna last
and its gonna last
thinking they had to
birds'd crashed

can't make it
can't break it
all our dreams to keep us through

and its gonna last
and its gonna last
thinking they had to
birds'd crashed

wells it like we found out
if your gonna think something
think something
that's not dead
you wouldn't wanna take it wrong
think it out
through your head

bad dreams
don't fill
that way I feel so strong
about this will

and its gonna last
and its gonna last
thinking they had to
birds'd crashed

all I have to do
is keep the feel
there and
better tingling thrill

and its gonna last
and its gonna last
thinking they had to
birds'd crashed

and its gonna last
and its gonna last
and its gonna last
