

I Look At The Moon

Roky Erickson

The moon looks at me
And tells me to look at you
To look at you
I look at the moon

The star looks at me
And tells me to look at you
To look at you
I look at the moon

Now it could have been a scary night
I came to you soon
To sing you a tune of the grackle
For a wolf howling at the moon too

Dogs and wolves
Sometimes used to howl at the moon
But they don't worry us still
I look at the moon

Now it could have been a scary night
I came to you soon
To sing you a tune of the grackle
For a wolf howling at the moon too

Dogs and wolves
Sometimes used to howl at the moon
But they don't worry us still
So I look at the moon
They don't worry us still
I look at the moon
