

# I Look At The Moon

Roky Erickson

The moon looks at me  
And tells me to look at you  
To look at you  
I look at the moon

The star looks at me  
And tells me to look at you  
To look at you  
I look at the moon

Now it could have been a scary night  
I came to you soon  
To sing you a tune of the grackle  
For a wolf howling at the moon too

Dogs and wolves  
Sometimes used to howl at the moon  
But they don't worry us still  
I look at the moon

Now it could have been a scary night  
I came to you soon  
To sing you a tune of the grackle  
For a wolf howling at the moon too

Dogs and wolves  
Sometimes used to howl at the moon  
But they don't worry us still  
So I look at the moon  
They don't worry us still  
I look at the moon
