

# I've Never Known This Till Now

Roky Erickson

I've been told through my lifetime  
That my love to me would be so kind

But I  
I've never known this till now till now  
I've never known this till now

Till now  
I've never known this till now  
I've never known this till now

I've been told in my life's history  
Just what my love would mean to me

But I  
I've never known this till now  
Till now  
I've never known this till now

Till now never known this till now

Oh oh  
What this being does to me  
It's ecstasy  
And that's the way it should be

I  
I've never known this till now  
I have missed it somehow  
I've never known this till now

I've been told through my lifetime  
That my love to me would be so kind

But I  
I've never known this till now  
Till now  
I've never known this till now

Till now  
I've never known this till now  
I've never known this till now
