

Please Judge

Roky Erickson

Please Judge Don't send that boy away In society I wish you'd let him stay Please don't give him time Please don't confine Please don't say Keep that boy away

Please Judge Give freedom to that child That sure would make him smile All that may do my rhyme Is deny that there is crime Please don't say Sender, keep that boy away

I been watching him for days And most of the time he prays That the crooked are always straight To know before anyone has to hear him Without pain Need to say I'm the same

Please Judge Don't send that boy away And society I wish you'd let him stay Please don't give him time Please don't him, confine Please don't say Send that boy away

Please Judge Give freedom to this child It sure would make him smile All that may do my rhyme Is deny that there is crime Please don't say Send that boy away

I been watching him for days And most of the time he prays That the crooked will go straight To him and you before anyone else To him who will think again If you will allow me I will say

Please Judge Don't send that boy away In society I wish you'd let him stay Please don't give him time Please don't him confine Please don't say Send that boy away
